SPEECH OF SECRETARY GENERAL AT OPENING MEETING MARKING
60th ANNIVERSARY OF FOUNDATION OF SOVIET UNION

MOSCOW, Dec. 22 - ANA - Comrade Ali Nasser Mohammad, CC Secretary General and Chairman of the Presidium of the Supreme People's Council and Premier, delivered a speech at the conference hall in the Kremlin on the occasion of the celebrations marking the 60th foundation anniversary of the U.S.S.R. The speech, which was delivered at three this afternoon, is as follows:-

"Comrades and Friends. It pleases me on the occasion of the 60th anniversary of the foundation of the U.S.S.R., to greet you from the bottom of my heart in the name of the Yemeni Socialist Party, Yemeni people and government of the PDRY and to greet through you all Soviet communists and citizens on this glorious and dear occasion wishing you further successes on the road of establishing the panels of the material base of the forthcoming great historic stage of socialism.

"I have had the honour of sharing in the celebrations of the Soviet people marking the 50th anniversary of the foundation of the Soviet Union and here I am today sharing in your celebrations marking the 60th foundation anniversary, and within a time of ten years we feel and see great accomplishments achieved, a matter that makes us say from our heart that the Soviet Union became truly stronger, richer and more beautiful.

"Dear Comrades and Friends. The question of world peace, which attracts to its ranks millions of human beings, is facing numerous dangers due to the aggressive trend of the circles of imperialism. From here, and at a time in which we must adhere to our principled stands in the struggle for consolidation of world peace and international detente, we will continue resisting the aggressive plans of imperialism and continue the struggle of our peoples for complete national liberation and realisation of social progress and to march on the road of socialism, the road of a shining future for mankind. On the consideration that we are advocates of peace and freedom, we admire the peaceful efforts and initiatives of the Soviet Union whether at the regional level in the area of the Middle East, Arabian Gulf, Indian Ocean and Arabian Peninsula or at the level of Europe and the entire world. We listened yesterday to the important speech delivered by Comrade Yuri Andropov which contained an important and comprehensive assessment on the international situation. While confirming those sound assessments on what is taking place

in the world today and the solutions needed by the international community for the problems being faced by it, we express our complete and full support for the Soviet proposals contained in the speech of Comrade Andropov for the establishment of peace in the world. We also call for piling up ranks of those who value the cause of world peace and social progress of the peoples in the struggle against the aggressive attitude and policy of international terrorism exercised by American imperialism as with that struggle we find the real evidence for realisation of just and concrete peace all over the world.

"Comrades and Friends. The circles of imperialism, as confirmed by the recent events in the Middle East area, are trying to restore their control and influence over our Arab area by force, terrorism and blackmailing. This appears clearly in the threats and policy of demonstrating muscles through military manoeuvres and formation of the American rapid deployment forces and construction and reinforcement of their military presence in the Arab area and seas surrounding it in addition to encouragement of Israel and extension of all types of military, economic and political backing to it and to employ it for the service of the strategy of imperialism in the Middle East area where, with the backing of the United States of America, human rights are violated and aggression continues on the Lebanese and palestinian peoples without paying heed or slight consideration to the international conventions, resolutions of the United Nations and world public opinion, and the staging of military manoeuvres in the Sultanate of Oman and Somalia for provoking Democratic Yemen and Socialist Ethiopia; and also the American threats against the Libyan people and the imperialist-zionist plotting against the steadfastness of Syria and other Arab and African progressive regimes. What must be realised by the circles of imperialism and Israel and their allies in our area is that history does not go clockwise and not return back and that our peoples, which resisted old colonialism and achieved victory over it, are capable of protecting themselves and defending their national and internationalist options and safeguarding the road of their free development."

"We wish to seize this opportunity to express our great admiration for the firm and internationalist stands taken by the Soviet Union for backing the just issue of our Arab peoples against imperialism and zionism topped by the issue of the Palestine Arab people and its legitimate right to determine its destiny, return back home and construct its independent State under the leadership of the Palestine Liberation Organisation, its sole and legitimate representative."

ALI NASSER'S SPEECH - Cont'd.

"Dear Comrades and Friends. Our people in the PDRY, which realised its independence through the heroic struggle and combat, is marching today with firmness on the road of building its new life for completing the tasks of the national democratic revolution with its socialist horizons. We affirm that Democratic Yemen will remain a steadfast fortress in the face of the conspiracies of imperialism and reaction and a strong shield for the national liberation movements in Asia, Africa and Latin America. It is suitable to point out here that the Yemeno-Soviet Friendship based on the friendship and cooperation treaty concluded between our two countries, constitutes one of the leading traces in the life of our Yemeni people and is crystallised in the numerous economic, social and cultural accomplishments constructed in our country with the help of the Soviet Union including the consolidation of the defensive ability of the country. This friendship will remain constantly firm and immortal and would shift its humanitarian examples and noble values from generation to another as an expression of the firm combat and internationalist alliance between the Yemeni and Soviet peoples.

"Once again I greet you on this glorious occasion, the occasion of the 60th anniversary of the foundation of the Soviet Union. Towards more great successes under the banner of developed socialism. Glory to the Soviet Communist Party. Long live the Soviet Union. Long live Arab-Soviet friendship. Long live Yemeno-Soviet friendship."
